

Universal PDA/Organizer Holder

Keeper I is the practical holder system for organizers. It is easily mounted on the dashboard, the windshield or the middle console. The receptacle with its flexible gooseneck and ball-head mount (including suction foot and vacuum clip) let you point your organizer in any direction you like.

The receptacle is suitable for all popular PDA's organizers and is easily snapped into the bottom side of the gooseneck or the pedestal. This sophisticated snap-in technology can be combined with any pedestal or gooseneck offered by DICOTA. You as the customer have a large variety of applications and other possibilities to choose from. The gooseneck can be mounted on any smooth surface using either the suction foot with the vacuum clip or the self-adhesive/screw-on pedestal! This flexible mounting system provides for perfect mounting of the Keeper I in any car!

Receptacle with self-locking holder clamps and adjustable feet. flexible gooseneck with integrated ball-head mount including suction foot and vacuum clip. self-adhesive or screw-on pedestal for the receptacle and gooseneck.

Setting hints for the Keeper I:

Step 1: Use the screw at the top of the ball to adjust the desired tensionary force.

Step 2: If you have a PDA that has buttons on the side, then you can remove the adjustable plastic clamps from the Keeper I, turn the Keeper I 180 degrees and affix the clamps again. This allows for almost totally inhibited use.

Art. Nr.: Z10748Z (black)

Material: ABS synthetics

Weight: 0.15 kg / 0.33 lbs

Dimensions: 85 x 105 x 45 mm / 3.3 x 4.1 x 1.8 inch
